ENGINEERING COLLEGE

AICTE Approved & Affiliated to GTU, Ahmedabad

2026
Jan-Jun

Message from Governing Body

- India's energy transition is in its own interest because, otherwise economic growth would not be sustainable and human security would be at stake, since millions of climate refugees are created due to the devastating consequences of climate change.
- The Prime Minister has committed to increase renewable energy and reach 500 GW target by 2030, which is only 100 GW in 2021.
- Our wind energy production is only 12.5% of the total potential and solar energy production is only 4.6 % of the total potential, a challenging task to tap unused resources.
- The Prime Minister has announced the launch of the National Hydrogen Energy mission.
- Green Hydrogen is a major component of renewable capacity of energy.
- Engineering problems of cost, scale, adopting new technologies, working out distribution chains and storage of Hydrogen should be met by the government, bureaucracy, universities, engineers and technocrats by a coordinated policy and its implementation.

Message from Principal

Prof. (Dr.) Piyush B. Vanzara

At V V P Engineering College, our vision is to transform our students into competent professionals by nurturing intellectual curiosity, inspiring creativity, and equipping students with the knowledge and skills needed to thrive in an ever-evolving world. We aim to be an exemplary institution that empowers individuals to reach their full potential, promotes interdisciplinary collaboration, and addresses global challenges.

We envision a future where our students not only excel academically but also grow as responsible and ethical leaders who contribute meaning fully to society. Our commitment to excellence in education and holistic development will ensure that our graduates are prepared to make a positive impact on the world in their respective fields and communities.

With a focus on continuous improvement, we strive to be a place where diverse perspective are celebrated, and where all members of our community-students, faculty, and staff-work together to create a sustainable, prosperous future for all.

About V.V.P. Engineering College

Vyavasayi Vidya Pratishthan is established by Rajkot Nagarik Sahakari Bank Ltd. to promote quality education in various technical fields. The trust was founded in 1996 with the, being objective of meeting technical educational needs of Gujarat.

The trust prides itself of establishing the first engineering college in Rajkot, the central location of Saurashtra and Kutch region. V.V.P. Engineering College is a self-financed institution affiliated to Saurashtra University and Gujarat Technological University, recognized by All India Council for Technical Education (AICTE), New Delhi and the Government of Gujarat.

It has a specially designed on 30 acres of land with spacious building providing an adequate infra-structural facility setup in a beautiful natural surroundings. It is landscaped with enlivened architecture that creates conducive environment of learning. The campus is located 10 Km on Kalawad Road, the west of Rajkot, with transportation and conveyance facilities.

VVP Engineering College is one of the best engineering college in India catering holistic growth to the students. It is providing state of the art facilities to the students. The institutes has many schemes and offers for well education of the students.

VISION

To be an exemplary institute transforming students into competent professionals with human values

MISSION

- To provide a conducive academic environment for strengthening technical capabilities of the students.
- To strengthen linkage with industries, alumni and professional bodies.
- To organise various co-curricular and extra-curricular activities for overall development of the students.
- To practice good governance and conduct value-based activities for making students responsible citizens.

Message from Head of the department

Dr. Darshana Patel

Department of I.T. of V.V.P. Engineering College firmly believe in the doctrine that students should be a part of the ever-expanding technology and so they should be aware of the recent advancements. In the IT sector, demand for skilled professionals and well-trained Engineers is on the rise. The department ensures to provide a better IT Infrastructure to its students so as to build their IT Skills and make them competent in the IT World.

Department's primary focus is to continue making efforts to ensure that all IT systems and services are highly available, highly reliable, and highly secure. It also significantly enhances the technology and facilities available to students and faculty and also strengthens its systematic effort to support the effective use of technology to improve teaching, learning, research, assessment and the administration of the College.

Department of Information Technology

VISION

To achieve excellence in the dynamic field of Information Technology by transforming students into outstanding IT professionals with human values to meet global challenges.

MISSION

- Imparting strong foundation and using tools and technologies to attain academic excellence and employability.
- Endowing expertise for transforming theoretical concepts into real-world applications that provides sustainable solutions to address needs of stakeholders.
- Cultivating analytical and soft skills inclusive of creative, managerial, team-work & communication skills through various activities to create competent professionals and/or entrepreneurs.
- Developing ever-learning attitude and ethics for professional life

Program Educational Objectives (PEOs)

Engineering graduates will be able to:

- ✓ Apply engineering fundamentals, scientific principles, analysis techniques, and design methodologies in IT field.
- ✓ Exhibit ever learning attitude to adapt the rapid technological changes in industry along with the implication of mathematical and logical skills & solve the real time problems.
- ✓ Demonstrate effective interpersonal, teamwork and leadership skills as well as work with values to meet the diversified needs of stakeholders.
- ✓ Advance their career in industry or continue their professional education or become an entrepreneur.

Program Specific Outcomes (PSOs)

On successful completion of program, will be able to:

- ✓ Apply knowledge of mathematics, science, engineering fundamentals and several information technology domains such as networking and security, data science, algorithms, Artificial Intelligence, etc. for providing solutions to real word problems.
- ✓ Apply ethics, management principles and soft skills to carry out societal IT projects diverse environment as a member or leader of a team.

Placements

Placement cell, Department of I.T. ensures that the students get best industry jobs. The students of department of I.T. get opportunity to be placed from more than hundred companies. Placement cell of Department of I.T. provides several types of pre-placement activities like mock PI, mock GD, Aptitude training, etc. to the students. The students get placements in reputed I.T. companies like TCS, Accenture, Noovosoft, Kevit, Tark Tecnologies, Red Hat, L&T Infotech, etc. Dpeartment of I.T. has achieved 100% placement for last six consecutive years. The vision of the Department of I.T. is to transform students into outstanding I.T. professionals. Placement cell of Department of I.T. is serving to achieve vision of the department.

Staff Achievements

Session Chair – 15th International Hybrid Conference (ICRCET-2026)

Dr. Darshana H. Patel represented the institute as a Virtual Session Chair at the 15th International Hybrid Conference on Recent Challenges in Engineering and Technology (ICRCET-2026) held in Bangalore. This recognition reflects her academic expertise and professional excellence.

Reviewer – International Conference on Artificial Intelligence and Data Engineering (ICAIDE-2026)

Dr. Darshana H. Patel was invited as a Reviewer for the 2026 International Conference on Artificial Intelligence and Data Engineering organized by NMAM Institute of Technology, Nitte, Karnataka. This achievement highlights her valuable contribution to quality research and scholarly publications.

Reviewer – 8th Parul University International Conference

Dr. Darshana H. Patel served as a Reviewer for the 8th Parul University International Conference on Engineering and Technology. Her selection for this prestigious role reflects her commitment to academic excellence and research quality.

Co-Ordinator – Shakti Samvad Conference 2026

Dr. Darshana H. Patel successfully served as the Co-Ordinator for the Shakti Samvad Conference organized by VVP Engineering College, Rajkot. Her dedicated leadership and effective coordination contributed significantly to the successful organization of the conference.

NPTEL Elite Certification – C&NS

Prof. Mit H. Dave successfully completed the SWAYAM NPTEL course Cryptography and Network Security with an Elite Grade. This accomplishment showcases his dedication to continuous learning and professional development.

NPTEL Elite + Silver Certification – Blockchain & Its Applications

Prof. Mit H. Dave earned the Elite + Silver Grade in the SWAYAM NPTEL course Blockchain and its Applications. This achievement demonstrates his commitment to staying updated with emerging technologies and enhancing academic excellence.

Industrial Visit

The Department of Information Technology organize several industrial visits for the students throughout year. The students understands functioning of the industries and gets insight into the real working environment. The department had organized visit at TOPS Technologies, Rajkot

Industrial Visit

Alumni Interaction

SPECTRUM : IT Alumni discourse

The Department of Information Technology successfully organized its alumni lecture series, SPECTRUM, inviting distinguished alumni to share their experiences and knowledge with current students. The event provided valuable insights into industry trends, career guidance, and practical learning, fostering strong connections between alumni and students.

Orientation Program

On the commencement of the new semester, department head and her team explained academic calendar with various technical and non-technical activities to be performed, rules to be followed, importance of disciplines etc. Top ten certificates for various categories like Ranker in mid exam, Highest attendance, Industry visit and its report etc. were also distributed to the concern students.

Club Activities

Various technical clubs have been organized by senior semester students to provide a platform for skill development and hands-on learning. These clubs cover a wide range of fields, offering students opportunities to enhance their technical abilities. Here some name of clubs. AI, Aptitude, Cyber Security, Data Analytics, Data Structure, GATE, Git Github, Python and Graphic Design Club etc.
